CAUCUS OF THE SENATE TODAY.

Will Pass Upon Changes Made in Committees.

WELLINGTON GIVEN A BACK SEAT

Displaced as Chairman of Committee on Establishment of University of United States-Other Probable Changes-The Leaders Plan Econemy.

A caucus of Republican Senators will be held this morning before the Senate meets, for the purpose of finally passing upon the revised committee list which has now been finally arranged by the committce on committees. As the Senate chairmanships are decided by the inflexible rule of seniority of service, it is easy to figure out who will get the important vacant chairmanships

Fixed by Rule of Seniority. Senator Cullom of Illinois will succeed the late C. K. Davis, of Minnesota, as-Chairman of the Committee on Foreign Relations: Stewart of Nevada will go to the head of the Indian Affairs Committee Elkins of West Virginia will succeed Cul-10m as Chaleman of Interstate Commèrce Dolliver of Iowa will get Pacific Railroads; Mason of Illinois will succeed Welcott of Colorado as Chairman of Postoffices and Post Ronds; Burrows of Michi gan will take Privileges and Elections, as the successor of Chandler of New Hamp shire, and so on through the list of important committees. All the old ex-Sens tors will move up a peg toward the chair-

Wellington Displaced. The most interesting change to be reported to the caucus is the selection of Senator Deboe, of Kentucky, to be chairman of the committee to establish the University of the United States in place his party, and has been refused house room by the Democrats. He will retain his membership as a Republican on the other committees of which he has been a member, as this will not disturb their

It is not likely that an attempt will be made at the caucus to agree upon a troggamme of legislation for the session. This question has been discussed informally, but nothing definite will be arranged until after the beliday recess. The House will pass the Philippine tariff bill temperow. It will reach the Senate Thursday and be referred to the Committee on Philippines, of which Senator Lodge is chairman. Both houses will then adjourn until January 6.

The stery that an attempt was made to out Senator Morgan as Chairman of the Senate Committee on Interoceanic Canals.

The resolutions also call upon Congress had charge of the canal bill and the credit for necuring the waterway will be given to actment, and enforcement in Porto Rico, the Alabama statesman. He will emain of statutes similar to those in operation the canal Committee as long as he remains in the Senate.

The resolutions also call upon Congress for the repeal of these laws and the canal the future, but, meet important of all, because underlying the efficiency of the nation was the question of cluestion, in which Great Britain was sadiguing. It was the weapon with which the nation has peacefully to fight other nations. At present, constituted or not nations.

The only changes proposed are to place two Republicans on the committee A general reduction of Democratic members is proposed, with increased Republican materials.

In the United States, It is also asked that an appeal be made to the President and Congress to prevent the carrying out of the sentence of the court against Santiago Iglesias.

Notwithstanding the large and growing Treasury surplus, some of the most influential of the Republican Sen-ators are of the opinion that eternal vigilance will be necessary to prevent it from being turned into a deficit by the eagerness of the Representatives of the various States. various States to open the pork barrel and distribute the contents.

No Reduction of Taxes.

Chairman Payne, of the Ways and Means Committee, says he will after a time bring in a bill abolishing the special war taxes so far as is necessary to get rid of the surplus, but members of the Senate Finance Committee are not natisfied that there will be any surplus to get rid of by the time the session is well unthink, therefore, that there will be no legislation in the way of removing or reduc-

ing internal revenue taxes.

The leaders are determined to have just as little legislation as possible on any subject, and to bring the session to a close just an soul as possible after the appropriation bills and other important measures which cannot be postponed are disposed of. It seems to be the consen of opinion now among the best-posted Senators and Representatives that the canal construction bill will follow the ratification of the treaty and that some sor of a ship subsidy bill will also become a

Hot Irrigation Fight Impending.

The joint committee of Senators and Representatives appointed to prepare ; bill providing money for the irrigation of arid lands have a measure about ready to be presented. This till is bound to stir up a long and stubborn contest, no some of the most influential men in both houses regard it as a shining example of that kind of paternalism that should be alpoed in the bud.

The friends of the irrigation plan have

organized a very thorough campaign in its behalf, and, as they can command the sup-port of a large number of Senators and Representatives from various States they will exert a strong influence and make it very difficult to defeat their bill.

A Model to De Avoided. That speech was a model to be avoided. He advised the party not to move much faster than the mans of the nation was prepared to move; otherwise it would find itself isolated. This advice could have been better put by a better authority than simmelf, namely, Theodore Roosevelt, the

pity in the world. Continuing, he said: "We hope to keep going on by steps, not bounds. We must keep our eyes on the stars, but also remember that our feet are on the ground.

Lord Rusebery declared that he knew there were many idealists and honest fanation, far in advance of the Liberal party and their times, who would repudiate this advice, but if they blew their trumpets until they cracked their cheeks the walls of Jericho would not fall.

The Sentiment of Empire.

His last piece of advice was that the sarry ought not to dissociate itself, even nutreetly unconsciously or by careless party ought not to dissociate itself, even indirectly, unconsciously, or by careless words, from the new sentiment of empire which occupied the nation. To many the word "empire" was suspect, indicating aggression, greed, and violence, but the sentiment now represented by the word in Great Britain had nothing of that in it. It was the sentiment of affection inolving a family feeling of pride, and the statesman who dissociated himself from it must not be surprised if the nation dissociated itself from him. If asked to state the policy to which the axioms he had laid down should be applied, he might find difficulty in complying except by imagining himself a responsible minister, which, he added facetiously, would be an inconceivably wild flight of the imagination; but his watchword if in office would be "efficiency."

Need of Efficiency.

If the pation had not learned from the war that it was greatly behind in efficlency it had learned nothing and its treasure and lives had been thrown away. | 1 The people had first to examine the efficlency of the Parliamentary machine.

It had been said that Parliament was on trial. He was not sure that the trial was ended and that the Jury was considering its verdict. He could not show more absolutely the ridiculous impotence to which Perliament had been reduced than by stating the fact that 76 per cent of the money votes in the House of Commons last session had been closured.

To Reform War Office,

Next, it was imperative to examine and overhaul the administration of the War Office, the complaints against which he believed to be just.
